Inschcorsie Felling 2025

Public Notice

Felling

Felling and extraction will be conducted in Compartments 1b1, 1b2 and 1d1 as demearcated in red on the map below. Where practicable, work will be conducted within the hours of 06:00 – 18:00 to minimise disruption to local residents.

Felling is due to commence on the 28.03.2025

Health & Safety

Please heed all warning signs within the forest.

Harvesting machines work at a fast pace and produce a high level of noise. Operators may not be aware of your presence should you approach. Debris from the felling process including "chainshot", can reach as far as 200m from a harvesting machine.

During active operations (March-August), we would ask you to avoid entering the upper part of the forest road to minimise the risk.

Access and Timber Haulage

Access for emergency crews and timber haulage is required at all times. If entering the forest do not block access with parked vehicles.

Timber lorries will be accessing the forest off the B9090 at ///collects.added.trickling. Please slow down whilst passing the entrance to ensure safe access.

Timber haulage will commence approx. 4 weeks following the start of operations. Please scan the QR code regularly for updates.

Haulage will spaced out as much as possible to avoid convoying and will avoid peak traffic hours.

Contacts

If you have any queries in relation to the operations, please contact the numbers below.
