Possible upgrade of forest tracks to enable access to potential new planting areas.

Option to manage areas of native woodland for local amenity benefit.

Potential new areas of commercial and native woodland planting  
If this was to be taken forward then it would be part of a FGS Woodland Creation Application

Fell coupe in phase 1.  
Area to be restocked with W4 Upland birch woodlands @1600 per Ha  
WIG Restructuring Regeneration Delivering Diversity and Resilience Woodland through going beyond what is required by UKFS and no more than 60% allocated to a single species.  
Approval period 2025-2030.  
Create public footpath through woodland.

Consider some enrichment planting within existing native woodland blocks.
